

All visitors will need a photo ID/drivers license.

People should plan to attend no earlier than 4:00pm and should be there by 4:15pm as the guard may have the vehicles checked and we will need to hand out safety equipment.

An escort will meet people at the main lobby(second guard check-in) and escort people to the assembly room.

The attire should be long sleeves shirts and pants with work boots or hard soled shoes. No tennis or open toed shoes allowed. Coats may be needed on the tour due to cold areas in the plant.

Safety glasses and hard hats will be picked up in the main lobby at the second guard check-in.
